1917

A hand-drawn floor plan of a building, likely a school or institutional structure, showing a grid of rooms. The plan is oriented vertically. At the top, there are two large circular features, possibly representing ventilation or structural elements. The main area is divided into several rectangular rooms. In the upper right, there are two rooms labeled '92' and '95'. Below them, on the right side, is a room labeled '94'. In the center, there is a room labeled '88'. On the left side, there is a room labeled '90'. The bottom of the plan shows a series of smaller, rectangular rooms or corridors. The drawing is done in black ink on a white background, with some lines indicating walls, doors, and furniture. The overall layout suggests a functional, multi-roomed building.
